

Client: Archaeological Mission of Wadi Hulat-Hadshit **Format:** CD for archaeological documentation

This project is a result of cooperation of two teams.

- Photography, photogrammetry (elevations, sections and floor plans): **ART'V Mérnöki Iroda (József Vajda József, Ilona Győrfi)**

- Panoramic image post-processing, virtual tour and software development: **3dtour.eu (Csaba Legány)**

Due to the ongoing Syrian crisis, the Hungarian archaeological team decided to continue its work in Lebanon to survey a ruined Christian monastery in Deir el-Shalib. This new project involved 360° panoramic photography and photogrammetry (maps, floor plans, elevation and section drawings) as well.

Number of panoramic images: 12

Languages: English, Hungarian. Planned: Arabic and French

List of features:

- Customized loader logo
- Panorama selector menu
- Background music
- Multi-level navigation system between floorplans
- Zoomable and scaleable maps, floorplans
- Comparable elevation and section drawings
- Documentation of the frescoes in detail
